### About Us

Balkon Enterprise Co. Ltd is a leading exporter and trading company specializing in premium natural gums and resins sourced from the heart of Africa. With our headquarters in Juba, South Sudan, we supply high-quality Frankincense (Luban), Gum Arabic Acacia (Talha & Hashab), Opoponax, and Myrrh to international markets.

Our sourcing network spans **Somalia, Ethiopia, Sudan, and South Sudan** — regions historically known for producing some of the world's finest natural resins. At Balkon, we are committed to providing exceptional quality and value, backed by ethical sourcing and sustainable practices.

## Frankincense (Luban)

A highly aromatic resin revered for centuries, used in incense, perfumery, and alternative medicine.

Botanical Source: *Boswellia* species

Origin: Somalia, Ethiopia, Sudan

Uses: Incense, essential oils, perfumes, traditional medicine.

Product Image:

## Gum Arabic Acacia Senegal(HASHAB)

**Description:** A premium-grade, naturally exuded gum from the *Acacia senegal* tree. Known for its superior emulsifying, stabilizing, and film-forming qualities, Hashab is the highest quality type of Gum Arabic available in the international market

Origin: Sudan, South Sudan

Uses: Food stabilizer, soft drinks, pharmaceuticals, confectionery, cosmetics, inks, adhesives.

## Gum Arabic Acacia Senegal(TALHA)

**Description:** Gum Arabic Acacia Senegal (**TALHA**) is a natural, water-soluble resin obtained from the **Acacia seyal** tree. Highly valued for its natural emulsifying, stabilizing, and thickening properties, this pale amber gum is widely used across the **food, beverage, pharmaceutical, cosmetic, and industrial sectors**. Origin: Sudan and South Sudan.

### Product Image:

## Opoponax (Sweet Myrrh)

Warm, earthy resin with a rich balsamic fragrance, popular in perfume production and incense.

Botanical Source: *Commiphora erythraea*

Origin: Somalia and Ethiopia

Uses: Fragrances, incense, traditional herbal remedies.

Product Image:

## Myrrh

Aromatic resin known for antiseptic and anti-inflammatory properties, used in incense, perfumes, and traditional medicine.

Botanical Source: *Commiphora Myrrha*

Origin: Somalia, Ethiopia

Uses: Medicinal, perfumery, aromatherapy, ceremonial applications.
